

Energy Monitoring
Efficiency tracking
made simple

Monitor your energy and water usage all from your phone. See how much water and electricity you've used per week, month and even year, and check estimated costs! By utilising this data, you can determine the best time to do your laundry to save both energy and money.

Self-diagnosis
Identify problems,
get solutions

The Series 7 has the ability to perform a self-diagnosis if the machine's components encounter a problem, and if so, will provide you with a resolution to help solve the issue, allowing you to get on with your washing stress-free.

Smart Notifications
Keep on top of
your laundry

The washing machine and dryer will send notifications when they need attention, such as if your washer is low on detergent or softener, if it's time for a drum clean or when the wash is complete. This allows you to keep an eye on your washer & dryer, wherever you are.

Smart
Technologies
**Smarter
Living**

Smart Control
Anytime,
anywhere, in control

Remotely control your washing machine and dryer, including start, pause and various operations thanks to ConnectLife. Accessing and controlling your appliance is just a tap away, wherever you are.

Smart Link
Smart connect
Easy dry

The washing machine sends the current washing program to the dryer *, which allows the dryer to intelligently choose the correct drying program to match, saving time and extra steps. The Series 9 can also be linked with multiple dryers.

* Smart Link is available when both the washing machine and tumble dryer are Wi-Fi connected, via intelligent display or ConnectLife APP.

Smart Assist
The perfect cycle
for every situation

By choosing your laundry's fabric type, colour, soil level and material characteristic, the washing machine will wash your clothes with a perfect combination of the right temperature, time, and water. Your clothes will always be in top shape.

Series 7
Smart Washing, Easy Living

Washer/Dryer

Yesterday an idea, **today a reality.**

Smart Washing, Easy Living

The New Hisense Laundry **Series 7**

ConnectLife

ConnectLife

With the help of the Connect Life application, it is easy to set up and connect washing or drying, and simply try a smarter way of life.

Intelligent Display

Featuring a 6.86-inch colorful touch screen, you can set, control and stay informed about each wash.

Smart Dosing

With upgrade of added water hardness sensor and wash load sensor, the Series 7 will automatically choose the precise detergent or softener dosage according to the water hardness and the weight of your clothes. It can also store up to 24 loads of detergent at any one time, meaning you'll only need to refill it about once a month*.

*Based on the average of 6 loads per week / 5kg load / Medium soil level. Actual results may vary depending on individual use, the washing load and settings.

Washer Features

AI Super Wash

A washing machine that knows

Automatically match the perfect wash cycle for your laundry by weighting and sensing loads. No more guess work. Smart Dosing* helps to fully utilize detergent and saves each drop to reduce waste water, protecting the environment.

*Based on the average of 6 loads per week / 5kg load / Medium soil level. Actual results may vary depending on individual use, the washing load and settings.

*Material sensing is completed by built-in algorithm.

Steam

Gentle steam, strong clean.

Set the machine to work and watch as steam is released from the bottom of the drum. The high-temperature steam penetrates the fibers of the clothes - Eliminating 99.9%* of Escherichia coli and Staphylococcus aureus, ensuring clothes are both clean and hygienic.

Customised Program

Design your personalised program menu

Customised program allows you to design your own washing program menu, through which you can select the programs and decide the order of your menu as you prefer it.

Quick Wash+

Washed in as little as 15 minutes

Tackle laundry in super-quick time. Simply choose from a 15 or 39 minutes program, which are perfectly programed for either 1kg or 4kg of laundry. Your clothes will be fresh and clean in no time at all.

Dryer Features

AI Dry

A perfect dry, every time

By humidity and temperature detection, the dryer will match suitable drying program and ideal drying temperature for your loads. With the help of sensors, the dryer will stop automatically when your laundry is done without damage fabric.

Self-cleaning Condenser

For hands-off maintenance

The best type of manual cleaning is none at all. With the Hisense self-clean function, the dryer will automatically clean and remove any lint left in the condenser, leaving your dryer left clean and pristine - and in tip top shape.

Power Steam

For smoother results you can see

Before your washing cycle starts, steam is released from the top of the drum, helping to remove wrinkles and odor. The right amount of water is then added, making your shirts smoother - without any ironing required.

Super Energy Efficient

Highly efficient, minimal costs

Developed with energy efficiency in mind, the Series 7 gives you all the benefits of a modern dryer, while using significantly less energy. This means lower electricity bills, and a step towards helping with the environment.

BASIC SPEC

Washer

Product Spec

Model	WF7S1247BW
Capacity	12kg
Dimensions (W×D×H)	595×640×845
